As stated
DOD SECURITY CLASSIFICATION GUIDANCE
FOR POST-OPERATION DESERT STORM INFORMATION

1. OVERALL REQUIREMENTS AND INFORMATION

a. This security classification guidance is a supplement to the DoD security classification guidance for Operation Desert Storm information promulgated by a 2 February 1991 memorandum from the Deputy Under Secretary of Defense for Security Policy (DUSD(SP)) to the DoD Component Heads.

b. This guidance is intended to provide users general categories of subjects and levels of classification to ensure the proper degree of information protection during Post-Operation Desert Storm operations.

c. This guide is necessarily broad in scope and cannot be inclusive due to the complexity and involvement of many organizations in Operation Desert Storm. It does not and is not intended to prevent original classification authorities from making original classification and downgrading/declassification decisions for information not covered by this guide.

d. Extra care should be taken to ensure that particular unclassified portions of Post-Operation Desert Storm material will not reveal classified information when combined or associated with other unclassified information.

e. Unless otherwise stated, the declassification of information classified by this guidance is "Originating Agency's Determination Required" or "OADR."

f. Public release of Post-Operation Desert Storm information will be in coordination with the Directorate of Defense Information, Office of the Assistant Secretary of Defense (Public Affairs) or the U.S. Central Command Public Affairs Office.

2. PARTICULAR REQUIREMENTS

a. Unit Deployment/Redeployment Data:

   NOTE: See Flow and Travel Data for related guidance.

   1. Identity of units deployed in Operation Desert Storm

   2. General geographic location of units deployed (e.g., city, air bases, and country location) in Operation Desert Storm (except for special operations units or personnel employed in Iraq prior to commencement of Operation Desert Storm)
3. Specific geographic location (e.g., grid coordinates) of units (other than those units still tactically deployed (see paragraph 4 below))

4. Specific geographic location of units still tactically deployed (declassify after departure from theater of operations)

5. Specific details of allied country participation or specific details of support for Operation Desert Storm that have not been published by the allied country's government and which would reveal information classified by this guidance or by the allied country

6. The degree of U.S. participation with allied or friendly nations in combat (specific caveats on U.S. or foreign government documents, e.g., "UK-SECRET, Releasable to U.S. only" or "SECRET-NOFORN, Releasable to UK only," indicating which third party nations may have access to information remain in effect)

7. Overall redeployment sequencing (Time Phased Force Deployment Data (TPFDD))

8. Individual air movement information

9. Projected or scheduled redeployment of individual AA or FF level units

10. All information about movements within CONUS

b. Logistics Data:

1. Overall Operation Desert Storm logistics plans showing sustainability of deployed forces
   (a) Detailed logistics/sustainment plans
   (b) Specific logistics/sustainment operations

2. Logistics plans for a brigade-size or smaller unit

3. Details of logistics shortfalls significantly impacting on mission accomplishment or that identify a unit's vulnerability which can be exploited

4. Logistics data associated with standard aircraft reporting, i.e., the Core Automated Maintenance

FOR OFFICIAL USE ONLY
System (CAMS) which includes aircraft status, utilization, station location designator, debriefing, job data documentation and discrepancies
